

360 Cloud vs. Lightspeed

Product	Features	360 Cloud	Lightspeed
Filter	True cloud (No agents, no appliance)	Yes	Yes Requires software agents per managed device type and an appliance for unmanaged devices
	Filters all device types	Yes	Yes Coverage for iOS devices is limited (e.g. only keyword blocking, no logging of searches or videos watched)
	Al-based flagged activity notifications for bullying and self-harm	Yes	Yes • Flagged activity notifications only work on Chrome and requires customers to bring their own keywords
	BYOD, Guest network, and unmanaged devices	Yes	Yes • Requires an appliance for these devices
	Seamless SSO	Yes	Yes
	Easy to set up	Yes	Yes Individual agent required for each platform (iOS, Windows, and Chrome) which creates an overall tedious process Unmanaged devices such as BYOD and Guest network require an appliance
	Scalable	Yes	Yes
	Unlimited data retention	Yes	No
	SSL decryption	Yes	Yes
Auditor (Network-level scanning)	Real-time notifications	Yes • Securly notifications go to delegated admin + optionally to 24/7 team • Notifications to parents coming soon	Yes
	Email scanning for signs of bullying, self-harm, and violence	Yes	Yes Lightspeed scans at a browser level rather than at server level like Securly Example: Student sends an email from their personal email address to a school email address at midnight - this will not be detected until at least one monitored student opens this email the next morning.

	Docs and comments scanning for signs of bullying, self-harm, and violence	Yes	Yes • Does not scan documents via Google APIs, instead only monitors web-browsing activity of docs.google.com at the browser level unlike Securly's network-level scanning
	Nudity detection in Drive and email attachments	Yes	No
	Video scanning	No • Coming soon	No
	Chat scanning	No • Coming soon	No
	Human-assisted sentiment analysis Al	Yes	N/A
	Confidence scores	Yes	No
